

SPPH ZERO HEROES

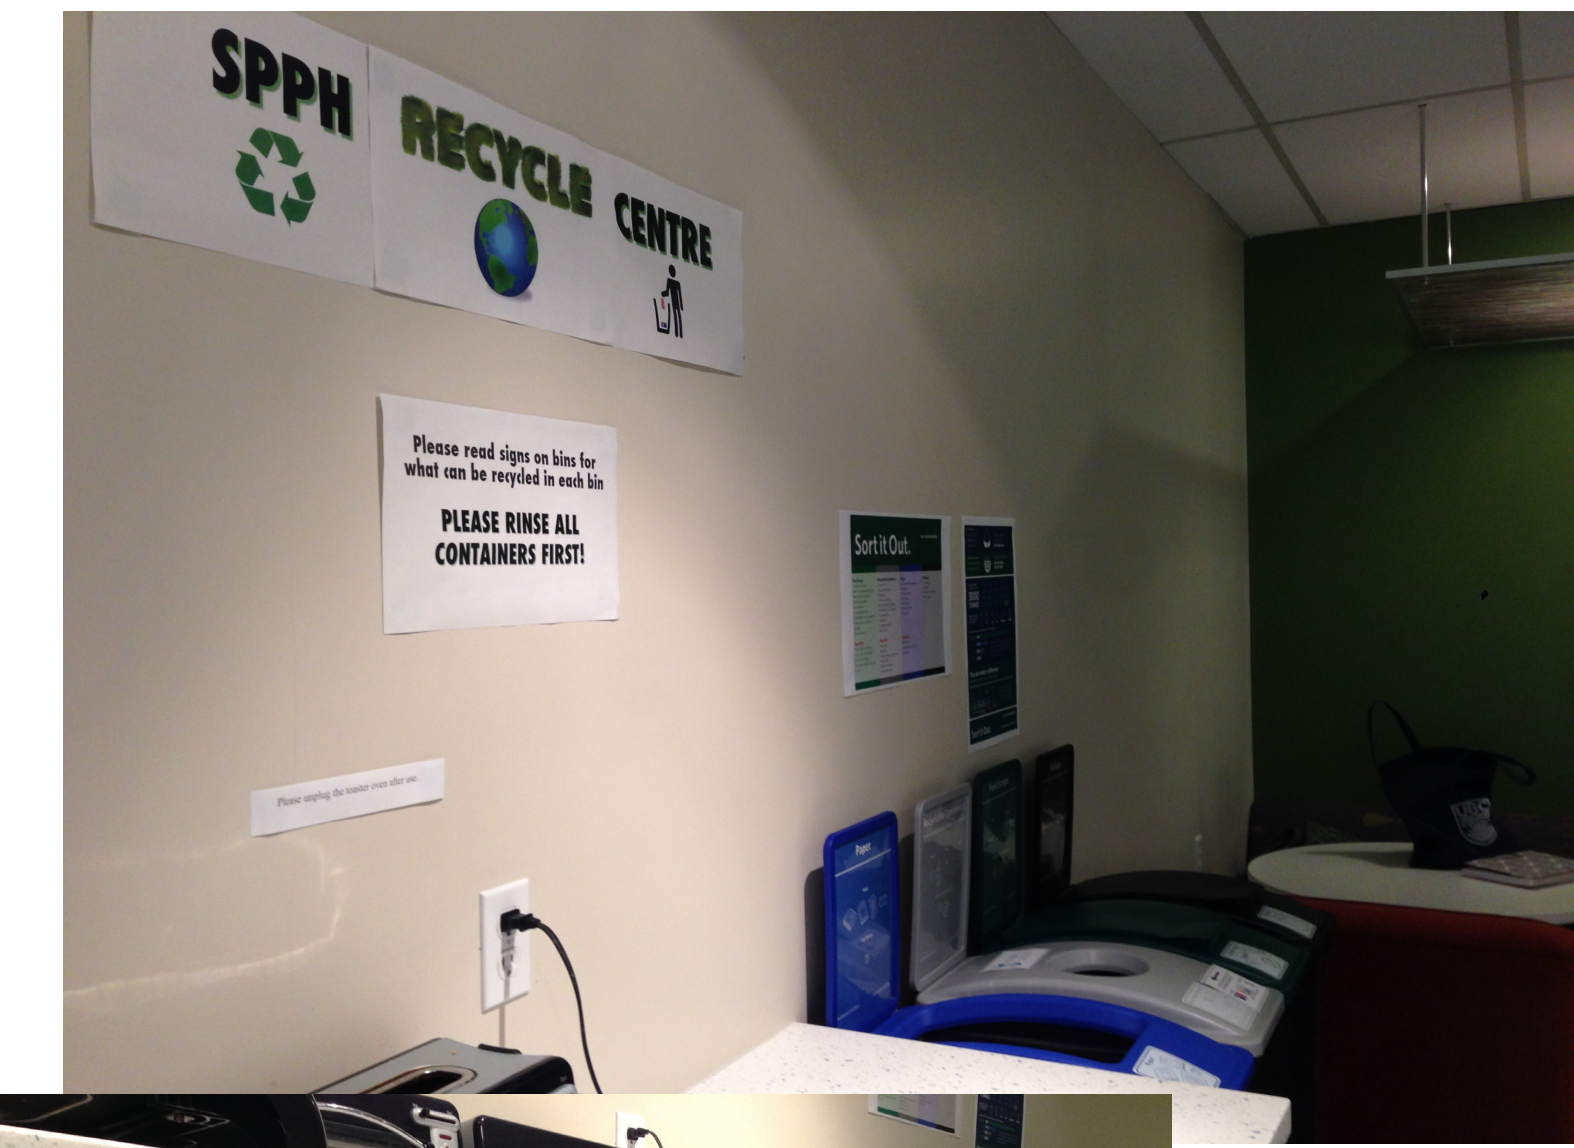

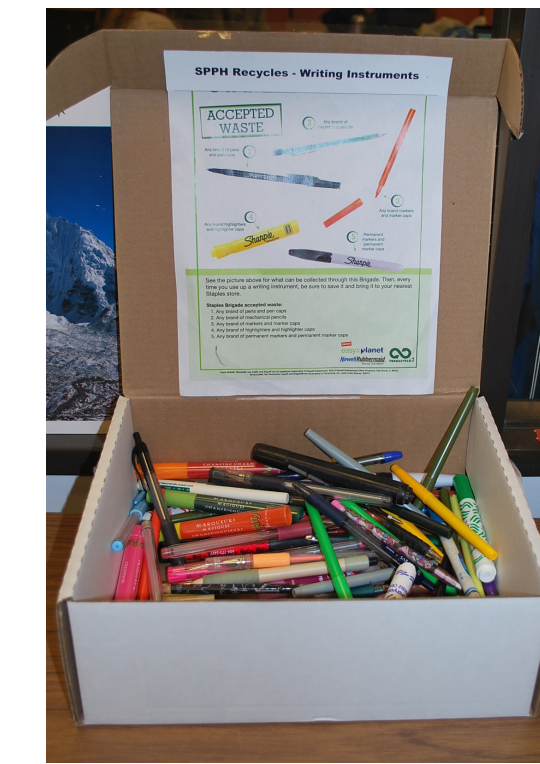

SPPH and the SPPH Sustainability Committee has worked over the years to expand recycling and sustainability initiatives to work towards a Zero Waste building!
These are our Zero Waste Initiatives that our students, staff and faculty participate in so far...

KAPOW!

Recycling boxes for writing instruments are found near all photocopiers in SPPH

Our SPPH Recycle Centre is a one-stop-shop for people to recycle as much as they can!

Styrofoam Recycling is collected and transported to the recycle center by our own faculty and staff

Our printer toner cartridges are recycled by Xerox, who come to pick them up from our office

Our newest recycling initiative - Cereal liners and bags!

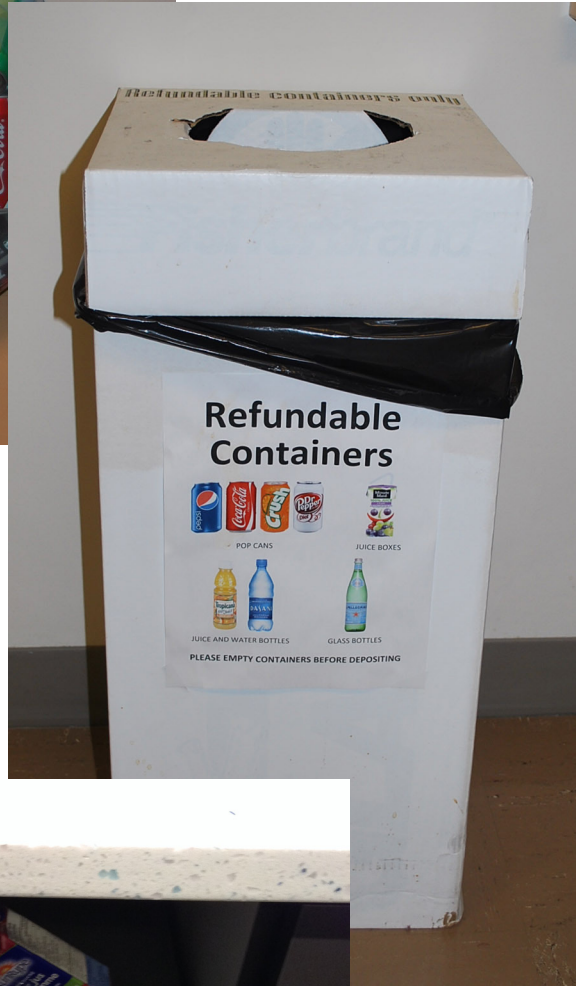

Soft Plastics Recycling

SPPH has been composting for over two years, starting with small counter-top bins (still used in smaller kitchenettes). This November we have upgraded to the new recycle bin stations which are now set up on each floor!

SPPH collects refundable cans and bottles which help to fund other sustainability initiatives! We have purchased our re-usable kitchen items with these funds

Our re-usable items for events; plates, glasses, mugs, cutlery, and portable bins!
