Speaker

Dr. Nick Bansback

MSc, PhD

Assistant Professor, School of Population and Public Health,
University of British Columbia.
Scientist, Centre for Health Evaluation and Outcome Sciences (CHEOS),
Providence Health Research Institute.
Research Scientist, Health Economics, Arthritis Research Canada

Dr. Bansback's research aims to inform policies and practices in health through the application of decision theory. Much of his work to date has focussed on informing resource allocation policy decisions through measuring and valuing public preferences, and developing decision-analytic models.
